Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 11-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

There is no nexus between the radiopaque target of claim 10 and each of "markers", "wires" and "basket".

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by St Goar et al (6629534).

St. Goar et al discloses a method for determining 1. the axis of a valve, including coaptation axis, comprising the steps of: positioning a device within the valve, the device moveable in response to opening and closing of the valve; and observing the device when the valve is closed, to determine the orientation of the coaptation axis. (see columns 18-21)

Claims 10-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Shennib et al (US 20030120341).

Shennib et al discloses a method for determining the coaptation axis of the mitral valve, comprising the steps of: advancing the distal end a catheter through the left ventricle to a position adjacent the mitral valve; deploying a radiopaque target from the distal end; and observing the alignment of the radiopaque target in response to closing of the mitral valve. (see paragraphs [0050],[0054],[0057],[0058],[0065-0068])

Allowable Subject Matter

Claim 13 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
